Apply	Anytime
-------	---------

This one-day course recognises agrichemical users who are able to demonstrate a competence in the use of agrichemicals within a specific horticulture or viticulture sector.

The Standard Certificate is intended for those working independently with responsibility for a single site/property (PCBU) and may have responsibility for supervising/managing others.

They are likely to be operating in a known set of circumstances, for example, one location, one crop and/or equipment type (or operating under the supervision of someone with an Advanced or RCA certificate).
